Right now we only have one of the one pagers ready (attached), but I will definitely send them along as we get the others. The due date is June 17. Hopefully, Unimatic OU2, Cinnaminson OU4, GCL OU3, Riverside, and Pesticide Warehouse I OU1/OU2 are already on your radar. We're aiming to get proposed plans on those out no later than the second week of July. There may be a few others later in the summer that won't be RODs this year - Sherwin-Williams OU4, Facet OU3 and Newtown Creek OU3. Shereen and I are going to try and get together soon to go over the timing. Thanks!

Thank you, yes. I should have asked Shereen before reaching out. Just didn't want to forget to ask, as I do a lot these days 😊.

Looping in Shereen. She is pulling together a calendar, and has asked the CICs for updates. Chloe can you coordinate with Shereen? Thanks!

Subject: Proposed Plans in the Cue
Importance: High

Hi Chloe,

Good to hear you today! On today's call, you reported that there are several proposed plans for June (and I am sure many for July). PAO CICs and others do know about some, but I want to make sure that PAO gets information to begin news releases as soon as possible. Can you share the one pagers and/or proposed plans with us now and let us know the expected order? We have quite a bit of HQ-generated demand on the press side (more about that over a beer some time), so the bigger the lead time we can get the better on these.
